

ALOETTE 

Here is my 73 year old Mom. First photo was last August. Started using Ageless Science with her Platinum in September. Second photo is October 31st (she doesn't usually wear a leopard costume) and the third photo is before Christmas!
The only thing she added was Ageless Science!

First one was my 50th birthday last year and after using Ageless plus Cell Regenerex for one year the 2nd photo was in Alaska!
Look at the difference in my skin!!! Amazing! With Aloette we get older but look younger and younger! I'm diggin' it! ~ Dana Davin

“This is a result of using Aloette faithfully day and night for 4 years. These pictures have not been altered, nor has there been any other cosmetic or surgical alteration. I weigh exactly the same in both pictures. The only alteration is the brick work behind me. This is the reason I share Aloette! This proof, my financial freedom, more confidence, and strength this is what Aloette has done for me!” ~ Jenifer Olson – 58 years young!

This is a customer who was burning trash and an aerosol can exploded in her face. She was allergic to the burn crème that the hospital gave her, so instead only used her *AloePure* skincare.
Check her out just two months later!!
How awesome is that!!
If Aloette can do that for such severely damaged skin, imagine what it can do for YOUR skin!!!
