## Lumitone PC Pigment Correcting Spot Treatment

Lumitone PC is a unique pigment correcting spot treatment that contains a time-release, non-irritating exfoliator and innovative ingredients to brighten skin, reduce the appearance of dark spots and target hyperpigmentation.

### Key Features and Benefits:

- Contains innovative ingredients to target age spots and hyperpigmented areas
- Uses a non-irritating, time-release exfoliator to “lift” dark spots away
- Designed to be used in conjunction with Lumitone HP Pro to target dark spots that require additional treatment

### Instructions:

Apply twice daily to dark spots and discolorations. Follow with Lumitone HP Pro.

**Retail Price: \$49.95 USD**
